

## Custom House Studios Ltd Environmental Policy 2022-2025

Custom House Studios aims to:

- Continue to reduce use of resource consumption, pollution and Co2 emissions.
  - Continue to reduce our wastage; especially landfill.
  - Actively promote recycling amongst artists, customers, staff and suppliers.
  - Integrate the consideration of environmental concerns and impacts into all decision making and activities.
  - Custom House Studios is committed to prioritising environmental matters by monitoring and improving our work in this area.
- 
- We have already reduced consumption by installing new LED lighting and efficient heating systems throughout the building - and increased insulation.
  - We will Reduce pollution by examining our cleaning products and source more environmentally friendly and less toxic products.
  - Reduce water consumption with new motion sensor taps in all bathrooms
  - We have already by installed thermostats and monitoring heating at a consistent temperature to reduce consumption.
  - Reduce waste by banning single use plastic bottles, encourage staff, artists and audiences to use reusable water bottles.
  - Reduce our Carbon Footprint by reviewing our printing requirements and using more environmentally friendly printers Increase awareness through our social media channels and website to encourage public engagement around environmental issues Increase awareness amongst all staff around environmental issues.
  - We will install solar panels on south facing roof – subject to approval form planners and heritage architect on Mayo County Council.
  - This is a working document and we welcome all input from visitors and invite members of the public to engage in our policy.
